### **13:00 – 14:00 Visit of the Hg laboratories and MC ICP MS (longer if needed)**

### **14:00 – 17:30: Practical implementation of the project**

- Overall project presentation - Arne Bratkič

### **Discussion:**

- To redefine / timeline, because we start later than planned - this especially includes the mobility of colleagues between us and sampling
- To fine-tune the roles of everyone in WPs and milestones because we are interdependent in some To agree exactly on joint PhDs, co-sponsorships
- To agree on joint publications
- To determine the role of MBP, Split, OGS and what peppers we need for SeaExplorer

### **19:00 - Dinner**
